Product Code 501061

230v 1kw 5amp

A full copy of the EHA Code of Practice regarding the safe hire of Electrical Equipment is available on request

GENERAL SAFETY ADVICE

Allens will have prepared, checked and delivered this appliance to you in accordance with the Event Hire Association (EHA) Code of Practice for Electrical Testing.

Electrical equipment is required to be properly maintained so as to prevent danger to the user.

It is our policy to inspect every electrical appliance before re-hire. This is done by an electrically qualified person trained in PAT Testing. This combined inspection and test includes:

- Visual Inspection
- Earth continuity tests (for Class I equipment)
- Insulation resistance testing (which can be replaced with protective conductor/touch current measurement)
- Flash Testing (or Hi-Pot testing)
- No load (run) test
- Polarity check (extension or detachable lead sets only), and
- Functional tests

The results of each test are recorded and are kept as records for future inspection.

OPERATING INSTRUCTIONS

Before turning on ensure the heating plate is securely attached to the underside of the appliance.

1. Lift the lid and remove the inner bowl.
2. Fill the outer pan with hot water.
3. Place the food in the inner bowl and replace the bowl in the outer pan.
4. Turn on the appliance at the mains power supply.
5. Turn the power switch On.

WARNING

Ensure the water level is between the 'MIN' and 'MAX' levels.

CLEANING

- Always turn off and disconnect the appliance from the power supply before cleaning.
- Use soapy water and a damp cloth to clean the exterior of the appliance.
- DO NOT immerse the appliance in water.
- The inner bowl can be removed and cleaned with warm, soapy water.
- At no point must the heating plate come into contact with water.
- Dry thoroughly after cleaning.

SAFE USE

The safe use of hire equipment is the sole responsibility for the hirer once the items are collected or arrive on site.

Allens staff are not allowed to install equipment on site, and you are not permitted to make any alterations to the appliance or its connectors in any way.

If in any doubt please ask an Allens advisor for advice on 020 8574 9600 or a qualified electrician.

- Never use the equipment in a poorly ventilated space or near combustible materials.
- Keep all children, animals and bystanders away from the appliances whilst in operation.
- Ensure the floor of the work area is flat, free from trip hazards and non-slip.
- Keep a bucket of water nearby to treat burns.
- Use CO₂ extinguisher to hand in case of and emergency.
- Wear suitable protective clothing, such as an apron, overall and hat. Use kitchen gloves for handling utensils to protect from burns.
- **Allow the appliance to cool fully before touching or cleaning.**
