Lincat Electric Ring
Product Code 601006

230v 3kw 13amp

**A full copy of the EHA Code of Practice
regarding the safe hire of Electrical Equipment
is available on request**

GENERAL SAFETY ADVICE

Allens will have prepared, checked and delivered this appliance to you in accordance with the Event Hire Association (EHA) Code of Practice for Electrical Testing.

Electrical equipment is required to be properly maintained so as to prevent danger to the user.

It is our policy to inspect every electrical appliance before re-hire. This is done by an electrically qualified person trained in PAT Testing. This combined inspection and test includes:

- Visual Inspection
- Earth continuity tests (for Class I equipment)
- Insulation resistance testing (which can be replaced with protective conductor/touch current measurement)
- Flash Testing (or Hi-Pot testing)
- No load (run) test
- Polarity check (extension or detachable lead sets only), and
- Functional tests

The results of each test are recorded and are kept as records for future inspection.

OPERATING INSTRUCTIONS

PREPARATION

For maximum efficiency, use good quality pans of adequate size with stable, slightly concave bottoms.

OPERATION

1. Switch on the mains supply and the green neon will illuminate.
2. Adjust the temperature to the desired level by means of the control knob.
3. Each plate incorporates a protection device that automatically reduces the power when the pan is removed or if a pan boils dry.

WARNING

1. Before working on or cleaning the equipment, isolate it from the power supply and allow it to cool to a safe working temperature.
2. Clean units with hot water and detergent, do not use abrasive or chlorine based cleaners on stainless steel. Take care to avoid wetting electrical components. Do not use a water jet.

SAFE USE

The safe use of hire equipment is the sole responsibility for the hirer once the items are collected or arrive on site.

Allens staff are not allowed to install equipment on site, and you are not permitted to make any alterations to the appliance or its connectors in any way.

If in any doubt please ask an Allens advisor for advice on 020 8574 9600 or a qualified electrician.

- Never use the equipment in a poorly ventilated space or near combustible materials.
- Keep all children, animals and bystanders away from the appliances whilst in operation.
- Ensure the floor of the work area is flat, free from trip hazards and non-slip.
- Keep a bucket of water nearby to treat burns.
- Use CO₂ extinguisher to hand in case of and emergency.
- Wear suitable protective clothing, such as an apron, overall and hat. Use kitchen gloves for handling utensils to protect from burns.
- **Allow the appliance to cool fully before touching or cleaning.**
